From an idea to a start-up in 15 days

15 work days of intensive training and acceleration with around 50 sessions from experienced Silicon Valley-minded entrepreneurs.
The 3 week overview

Week 1
Customer Validation

Week 2
Prototype

Week 3
Product launch
Experienced mentors and entrepreneurs with outstanding skills in marketing, design, and IT work closely together with the students to nurture the spirit of innovation.
1 on 1 Investor meetings

On the 3rd week teams pitch their startup to Silicon Valley investors and journalists to raise money, talent and advisors.
An artificial intelligence robot mentor motivates and teaches entrepreneurs to achieve their goals 10X faster and engages all team members into the process of innovation.

In 2019 we are aiming to make a Guinness Record by having robots disrupting the education system and mentoring 700 students in Italy and Portugal.
In order to achieve the goals within 3 weeks all teams use the **EIA online platform, mobile app** in cooperation with 7 different type of mentors and a **40-page day-by-day methodology book** developed in collaboration with our Silicon Valley partners.
Participants from UC Berkeley, Deakin University, Tsinghua University and Virginia Commonwealth University sharing their insight about participating in EIA.
